^ *Explanatory notes on adjusted percentage, mean and SD (collectively referred to as "adjusted statistics" below):*

1. *Adjusted statistics are calculated to provide a reference with extreme responses being excluded.*
2. *If a survey recorded 3 or more responses, the top 1.5% AND bottom 1.5% responses will be discarded. The number of discarded response(s) of each end is rounded UP to the nearest integer. The resultant data set will then be used to calculate adjusted statistics in this report.*
3. *Adjusted statistics will be provided up to course level if and only if they meet the following conditions:*

Level of adjusted statistics	Conditions
Survey level	The survey receives 3 or more responses.
Section level	(1) All surveys receive 3 or more responses; AND
	(2) This section is taught by One teaching staff only (instructor / TA).
Course level	(1) All surveys receive 3 or more responses; AND
	(2) This course is taught by One teaching staff only (instructor / TA).

If no adjusted statistics is provided, it will be marked as "-" in this report.
